Commissioner for Patents

Alexandria, VA 22313-1450

Dear Sir:

This is in response to the Notice of Allowability dated July. 01, 2008 in connection with the above-identified application.

The July 01, 2008 Notice of Allowability indicates in Part II of the Examiner-Initiated Interview Summary that "[e]xaminer suggested incorporating limitations from dependent claims 5 and 40 to the independent claims for allowability consideration." Applicants respectfully submit that the currently pending claims are allowable for what these claims respectively recite rather than whether or not certain limitations from the dependent claims are incorporated in the independent claims. Applicants further respectfully submit that the proposed amendment to the claims were presented to clarify the claimed inventions as embodied in the amended claims, without acquiescence in the cited basis for rejections or prejudice to pursue those claims then amended in a

related application. Therefore, Applicants do not concede to the cited basis for rejections as listed in various Office actions. As such, Applicants respectfully submit the comments on the statement of reasons for allowance.

Respectfully submitted,

Dated: October 01, 2008
